

December 29, 1959

Professor George Klein  
Institute for Tumor Biology  
Karolinska Institutet  
Stockholm 60, Sweden

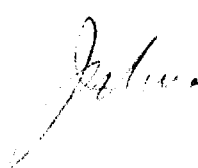

Dear George:

Thank you for your letter of December 19.

Please accept this letter as a formal invitation to visit this Department for the months of June, July and August 1961 with the rank of Visiting Professor of Genetics. We look forward to your giving a course, for our summer quarter, in the field of experimental mammalian genetics, and to collaboration by your wife, Dr. Eva Klein, and yourself, with us in the research laboratories. We can offer you a stipend of \$3,000 for your three months' services, and will give every possible assistance in arranging for your housing and general convenience and comfort during your stay. Please let us know if we can help you in any other way in support of such applications as you may plan to make for assistance in travel costs and so forth. As you know, living costs in this part of California are quite high, especially for a short term visit, and we hope you can make arrangements that will make your visit possible without financial embarrassment.

We will be privileged to receive your acceptance of this offer.

Yours cordially,

 Joshua Lederberg  
Professor, and  
Executive, Department of Genetics
